What to investigate next

Only 3 completed GA4 days available. Trend and anomaly checks need at least 6 days; financial setup and saved-target checks still run.

Trend signals

Trend signals need more history

Basis: GA4 recorded completed daily history; missing dates are unavailable | Confidence: High

Current 7-day window 2026-10-12 to 2026-10-18: 3/7 completed days. Prior 7-day window 2026-10-05 to 2026-10-11: 0/7 completed days. Current 3-day window 2026-10-16 to 2026-10-18: 3/3 completed days. Prior window 2026-10-13 to 2026-10-15: 0/3 completed days. Both adjacent calendar windows must be complete before comparisons run; 3 recorded campaign dates are available.

Recommended check: Check the daily refresh. Comparisons require recorded data for every day in both windows.

Revenue and spend checks

Spend is not connected

Basis: Connected-source revenue/spend totals | Confidence: High

Spend is not configured for this campaign, so ROI/ROAS/CPA and spend-based KPIs/Benchmarks are blocked until a spend source is added.

Recommended check: Import spend to enable spend-based executive metrics.
